# BELL CARDI

#bellcardi @annarkiv

A spectacular cardigan

### Construction

Knitted top-down with a bell structure. The bells are created by increasing into a triangular structure in stockinette, then binding off all the stitches. Raglan increases are worked in the yoke. The piece is divided for the body and sleeves, which are worked separately. The jacket is not very difficult technically, but requires a lot of work.

### Techniques

M1R and M1L
Selvedge stitches
Reading a chart

### Size guide

The jacket can fit with either a very generous or a very close ease. Measure against a garment you own to find the right size. The jacket in the photo is size 1 and the model is 168 cm tall. The cardi is also nice as a bolero or shorter cardi.

# BELL CARDI

#bellcardi @annarkiv

**Sizes**
1 (2) 3

**Measurements, lying flat**
Width: 67 (74) 81 cm | 26.4 (29.1) 31.9”
Length: 71 (73) 83 cm | 28 (28.7) 32.7”
*The length will stretch somewhat in use as the garment is quite heavy in Alpaca Lin.*

**Recommended needle size**
5.5 mm/40 cm and 80 cm | US 9/16” and 32” circular needles

**Gauge per 10 cm | 4”**
Stockinette on 5.5 mm | US 9 needles, held double: approx. 11 sts / 16 rows

*Check your gauge. If you knit too tightly or too loosely, the finished garment will have different measurements, and you may run out of yarn. If you have more sts per 10 cm | 4”, go up a needle size. If you have fewer sts, go down a needle size. If you don’t hit the row gauge, you can work more repeats to achieve the length you want, as long as you have enough yarn.*

**Yarn Choice**
*Rauma Alpakka Lin is both fluffy and has some weight to it, creating an exceptionally beautiful drape in the finished garment. Tjukk Mohair is lighter and gives a more bouncy look.*

**Rauma Alpakka Lin**
*175 m / 191 yds / 50 g*

**Rauma Tjukk Moahir**
*100 m / 109 yds / 50 g*

**Cutting bell rows**
*One less bell row on the body saves about 105–145 g of yarn. Cutting a row from the sleeves saves another 75–100 g. Gauge varies between knitters, so leave a little margin.*

**Rauma Alpakka Lin, double strands**
1050 (1150) 1250 g

or

**Rauma Tjukk Mohair, single strand**
950 (1000) 1100 g

## TECHNIQUES & TIPS

**M1R and M1L:**

*M1R: Insert the right needle from the front under the horizontal strand between the left and right needles, lift the strand onto the left needle and knit it.*
*M1L: Insert the right needle from the back under the horizontal strand between the left and right needles, twist the needle to the right and place the strand onto the left needle, knit through the back loop.*

**Selvedge stitches:** *For neat edges, work selvedge stitches: Work the first st on the needle as a twisted knit st, and slip the last st on the needle purlwise with yarn in front.*

## HOW TO MAKE IT

The jacket is worked with one strand Rauma Tjukk Mohair or two strands of Rauma Alpakka Lin held together. Work selvedge stitches at each end (see techniques) throughout.

**Neckline**
Cast on  44 (50) 56 sts fairly firmly on 5.5 mm/80 cm | US 9/32" circular needles.
Increase row:
Row 1 (RS): Work 1 selvedge st, *YO, k1, repeat from * to 1 st before end, YO, work 1 selvedge st. You now have 87 (99) 111 sts.
Row 2: Work 1 selvedge st, *k1tbl, p1, repeat from * to 2 sts before end, k1tbl, work 1 selvedge st.

**Yoke**
Continue in 1×1 ribbing for 3 cm | 1.2".
Then increase on the next WS row as follows:

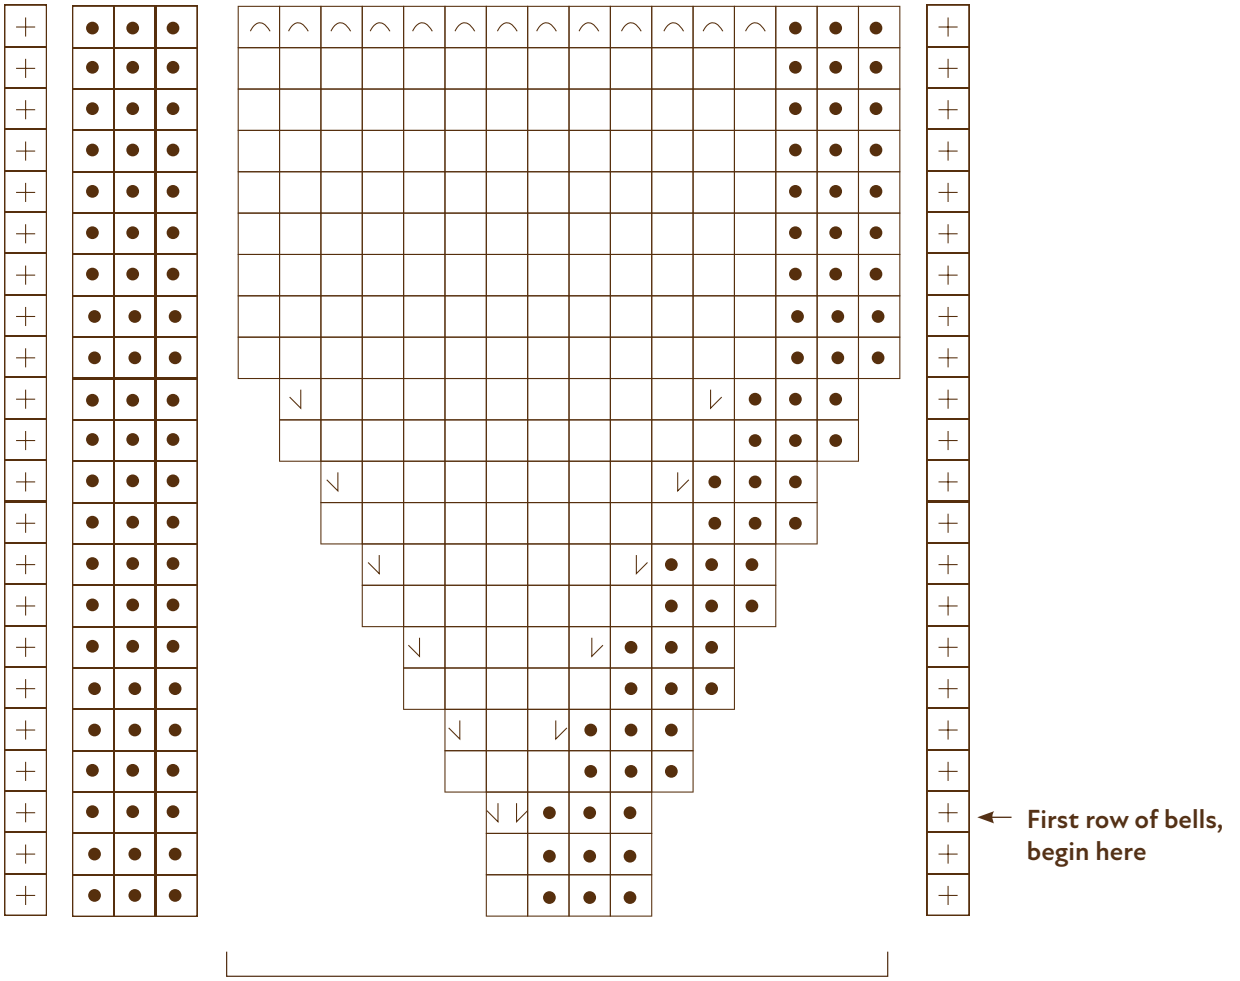

Row 1: 1 selvedge st, *M1R, k1, M1L, p1, repeat from * to 2 sts before end, M1R, k1, M1L, 1 selvedge st. You now have 173 (197) 221 sts.
Row 2: 1 selvedge st, *p3, k1, repeat from * to 4 sts before end, p3, 1 selvedge st.
Continue in ribbing (3 purl, 1 knit interval as seen from the RS) for 5 (7) 7 cm | 2 (2.8) 2.8".
Begin the bell pattern on a RS row. Work chart 1 starting at the mark for the first bell row.

Once you have finished the chart (and have just bound off many sts on a WS row), you will work raglan increases over the next 4 rows following chart 2a. Before you begin, place markers at st number 21 (24) 27 and 47 (53) 59 counted in from each side — 4 marked sts in total. The bells are distributed as follows: 6 (7) 8 bells front | 8 (9) 10 bells sleeve | 14 (16) 18 bells back | 8 (9) 10 bells sleeve | 6 (7) 8 bells front.

## CHART 1

All charts are read from right to left, from bottom to top.
When working flat the WS rows are read from right to left.

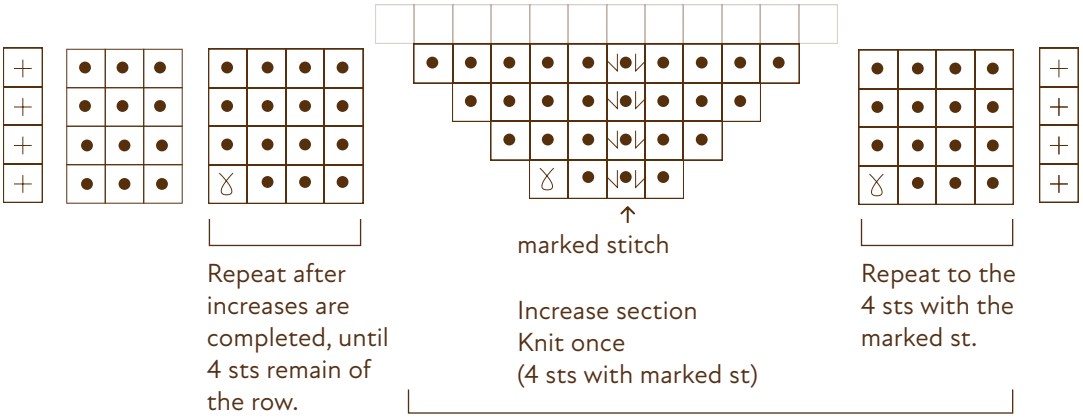

## ABBREVIATIONS

- Selvedge st (see techniques)
- Knit on RS, purl on WS
- Purl on RS, knit on WS
- M1R (knit)
- M1L (knit)
- M1R before st (knit), knit st, M1L after st (knit)
- Bind off
- Cast on new st using backward loop cast-on
- M1R before st (purl or knit depending on if you are on the RS or WS), purl or knit st, M1L after st (purl or knit)

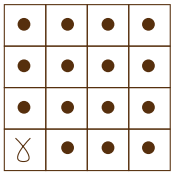

## CHART 2a (raglan increase)

## CHART 2b (body)

## DIAGRAM 2c (sleeves)

© COPYRIGHT - ALL RIGHTS RESERVED - ANNARKIV 2026 - www.annarkiv.com

**Raglan increases**
Follow chart 2a.
After the increase rows you have 32 new sts and 205 (229) 253 sts in total. You now have 7 (8) 9 bells for each front piece, 10 (11) 12 bells for each sleeve, 16 (18) 20 bells for back piece.

Work a new row of bells following chart 1.
Repeat chart 2a, giving you 237 (261) 285 sts. You now have 8 (9) 10 bells for each front piece, 12 (13) 14 bells for each sleeve, 18 (20) 22 bells for back piece.

**Divide for sleeves and body**
On the body you now begin chart 1. On the first row of chart 1 divide for body and sleeves. Sts are distributed as follows: Front: 35 (39) 43 | Sleeve: 49 (53) 57 | Back: 69 (77) 85 | Sleeve: 49 (53) 57 | Front: 35 (39) 43.
*Work to and including the marked st, place the sts from here to the next marked st (not including) on a strand of yarn for the sleeve. Cast on 5 sts under the sleeve using backward loop cast-on. Repeat from * to do the same on the other side, giving you 149 (165) 181 sts for the body.
Work chart 1 followed by chart 2b until you have a total of 5 (5) 5 rows of bells from the beginning, ending having completed chart 2b. Bind off.

© COPYRIGHT - ALL RIGHTS RESERVED - ANNARKIV 2026 - www.annarkiv.com

**Sleeves**
*Tip: To avoid holes under the sleeves you can pick up extra sts and decrease them on the next round. Since you are only picking up 3 sts it may feel slightly open. You can also close this by seaming under the sleeve afterward.*

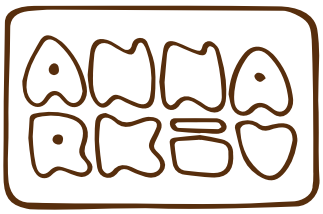

Pick up 3 sts using a short 5.5 mm/40 cm | US 9/16" circular needle, then place the sleeve sts onto the same needle — 52 (56) 60 sts total.

Make sure to start the round correctly in relation to chart 1, so that the bells align from the yoke down onto the sleeve. Work chart 1 followed by chart 2c a total of 2 (2) 3 times. Bind off.

Repeat on the other side.

The jacket does not need to be blocked or wet before wearing. When washing, be very careful as the garment can stretch significantly due to its weight.

I (Anna, the designer) used to co-own the yarn brand Pickles, where I developed a bunch of patterns over the years. I now manage my patterns made since 2009 under this brand, Annarkiv. If you think you might have seen this design under a different name before, you're right.

ANNARKIV is put together by my name, Anna (oh, really?) and arkiv (meaning archive in Norwegian). As you might have picked up ANNARKIV kind of sounds like anarchy. For me it simply means no rules and total freedom to express myself. And hopefully inspire you to express yourself too.
